CASE STUDY

MANUFACTURING MADE EASIER

Amigo Mobility provided a better solution with the Dex stand-up personnel carrier with hitch accessory

CHALLENGE

Feather River Doors employees manually move products from warehouse to assembly one cart at a time.

SOLUTION

The Amigo Dex was introduced and employees can now tug two manual carts full of product doubling their efficiency

FEEDBACK

“The Dex reduces the amount of time spent pushing manual carts, as well as eliminate physical strain on employees.”

CUSTOM BUILDS

Amigo’s material handling line can be customized to fit your needs. Let us create the ideal solution for your unique challenge.

“Our custom trailers were developed for the Dex to feed our production lines more efficiently while reducing worker fatigue and improving their safety.”
– Todd Pleasant, Feather River Doors Facilities Manager

DEX Pro+

DEX Pro+

Stand-up carrier
w/ detachable trailer

The innovative design of the Dex Pro+ is an ideal solution for moving products. This stand-up carrier with a detachable trailer can be used for multiple applications and is sized to fit a pallet.

Whether used to transport products to various work cells or give relief to employees who have to push carts to move materials, the Dex Pro+ has been designed to help increase efficiency and is perfect for warehouse and retail environments.

Additional trailers may be purchased separately to provide a drop-and-go solution. Trailer dimensions: 50" x 30" (127 cm x 76 cm).

SPECIFICATIONS

-  1,100 lbs (498 kg) capacity, including rider
-  24-volt battery system extends run time and charges in a 110V outlet
-  52.5" (133 cm) turning radius
-  Adjustable speed up to 4 mph (6.4 kph)
-  Fits through standard doorway

SIDE RAILS

"With DEX, there is less stress on the employees, especially when they have to carry several tools to a job. DEX is safer because of its speed limit and all the blind corners we have in the shop."

- MIKE HUDSON

Technical Support Supervisor
US MANUFACTURING CORPORATION

DEX

Stand-up personnel carrier

DEX is an affordable solution to help employees improve efficiency and productivity while reducing risk of injury and fatigue.

On average the DEX is half the cost of leading personnel transportation devices.

- Easy access to drive components for service
- Ergonomic handle design

24-volt battery system extends run time and charges in a 110V outlet

Zero turn radius

Adjustable speed up to 4 mph (6.4 kph)

Fits through standard doorway

ABOUT AMIGO

In the late 1960's, a young Al Thieme was working as a plumbing and heating contractor in Bridgeport, Michigan. A family member began to lose mobility due to multiple sclerosis and there were limited personal mobility devices available at that time.

Al knew there had to be a better way.

Working in the evenings in his garage, Al constructed a vehicle that would allow people with walking limitations to maintain their independence. He invented the Amigo, named for being described as the best friend of the first person who used it and a new industry in mobility was born.

Founded with the mission of *Improving Lives Through Mobility®*, Amigo is a family owned and operated business that Al continues to run with his wife Beth Thieme and a talented team of employees. Every Amigo is manufactured at our Michigan headquarters and shipped worldwide for a variety of markets including healthcare, grocery and retail, material handling and hospitals.
